

Our Resource Partners

GGGI's operations are made possible by voluntary core and (program and project) earmarked contributions from a growing number of partners that share the Institute's goals and objectives, including governments, international institutions, private foundations. GGGI is an ODA-eligible and EU pillar-assessed international organization. As part of GGGI's commitment to transparency, it publishes detailed information on its funding sources, funding amounts received, and the projects supported through its audited annual financial statements. GGGI also publishes funding data to the International Aid Transparency Initiative (IATI) Registry, as outlined in [GGGI's IATI Implementation Schedule](#).

Resource partners providing voluntary core contributions (alphabetic order)

- Foreign, Commonwealth and Development Office, United Kingdom
- Ministry of Foreign Affairs of Denmark
- Ministry of Foreign Affairs, Republic of Korea
- Royal Norwegian Ministry of Climate and Environment

Resource partner profile: Republic of Korea

The Republic of Korea provides both core and earmarked funding to GGGI. The Ministry of Foreign Affairs provides annual core funding to retain its status as a contributing member, as defined by the Agreement on the Establishment of GGGI. The Korea International Cooperation Agency (KOICA) provides earmarked funding it supports of GGGI's Country Planning Frameworks, such as in the Philippines to mainstream climate resilience and inclusive green growth in the agricultural sector of Oriental Mindoro, and in the Pacific to increase access to energy through renewable technologies in rural areas in Fiji, Papua New Guinea, Solomon Islands, and Vanuatu. GGGI also partners with the Korea Forest Service on sustainable forest and landscape management, and the Korea Rural Economic Institute on climate smart agriculture.

Resource partners providing voluntary earmarked contributions (alphabetic order)

- Agence Française de Développement (AFD)
- Asian Development Bank (ADB)
- Belgian Development Agency (Enabel)
- Bill and Melinda Gates Foundation
- ClimateWorks Australia
- Department of Foreign Affairs and Trade, Government of Australia (DFAT)
- Department for Business, Energy, and Industrial Strategy, United Kingdom (BEIS)
- European Commission
- German Agency for International Cooperation (GIZ)
- Green Climate Fund (GCF)

Resource partners providing earmarked funding (alphabetic order) – Cont.

- International Institute for Environment and Development (IIED)
- Italian Ministry of the Environment and Protection of Land and Sea (IMELS)
- Green Technology Center of Korea (GTCK)
- Korea Forest Service (KFS)
- Korea International Cooperation Agency (KOICA)
- Korea Rural Economic Institute (KREI)
- Ministry of Foreign Affairs of Denmark
- Ministry of Innovation and Technology, Government of Hungary
- NAMA Facility
- NDC Partnership

- Royal Norwegian Ministry of Climate and Environment
- Swedish Energy Agency
- Swedish International Development Agency (Sida)
- The Open Society
- United Arab Emirates Ministry of Climate Change and Environment
- United Nations Development Program (UNDP)
- United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP)
- United Nations Environment Program (UNEP)
- United States Agency for International Development (USAID)
- US Department of State
- World Bank
- World Resources Institute (WRI)

Earmarked resource partner profile: New Zealand

The New Zealand Ministry of Foreign Affairs and Trade (MFAT) and GGGI launched a partnership in 2020 to support Pacific countries to plan effectively for low-emission, climate resilient futures. Through the partnership, GGGI will help Pacific countries to develop climate change policies, plans and investment road maps across a wide range of sectors – such as electricity, transport, agriculture, tourism, and urban planning. As countries set out their economic recovery strategies from the COVID-19 pandemic, there are opportunities to accelerate climate action and this partnership will utilize this crucial time to make change. There is an opportunity to build back ‘greener’, and opinion polls show that there is public support for that in COVID-19 recovery plans. [Read more](#)

Earmarked resource partner profile: Green Climate Fund

The Green Climate Fund (GCF) and GGGI have formed a strategic partnership to bolster developing country capacities to deal with the unprecedented challenge of climate change. To ensure that GGGI remains a neutral adviser to governments, it carries out this work as a Readiness Delivery Partner; GGGI is not a GCF Accredited Entity that proposes and carries out climate finance projects that are approved by the GCF Board. Over 20 countries have requested GGGI to act as a Readiness Delivery Partner. GGGI’s in-country teams have supported 21 GGGI’s government partners access over USD 19 million in GCF-approved Readiness funding and submitted over USD 12 million of Readiness proposals.
